

## New Berlin High Schools Alumni Foundation

June 20, 2023 Newsletter

# NBHSAF Sweepstakes!

The New Berlin High Schools Alumni Foundation launched its First Annual Sweepstakes. What does it cost?!? **Nothing!** It is our way to spread the word about the New Berlin High Schools Alumni Foundation.

Did you know that NBHSAF provides scholarships to graduating seniors from New Berlin West and New Berlin Eisenhower who plan on attending vocational and trade schools, or plan on entering an apprenticeship program? Our Scholarship Fund is made possible through the generosity of New Berlin Alumni and companies both within and outside the City of New Berlin. Without them, the New Berlin High Schools Alumni Foundation could not impact tomorrow's workforce.

Statistics point out that the greatest shortage in America right now are people entering into the skilled trades and two-year vocational training. We want to help these graduates reach that dream. From IT positions to healthcare positions to running heavy equipment, the list goes on. The [recipient of this year's scholarship](#) is a perfect example

of working with a company while still in high school and being offered an apprenticeship.

## NBHSAF 2023 Annual Picnic

All New Berlin West and New Berlin Eisenhower Grads and their families are invited to join the New Berlin High Schools Alumni Foundation for our Second Annual Picnic at Calhoun Park. Last year we had a little rain but being the hardy bunch we are, we still had a great time. The NBHSAF once again has the shelter reserved, so rain or shine, the picnic will go on. Come join us on August 19th!

## 2023 SCHOLARSHIP RECIPIENT

The New Berlin High Schools Alumni Foundation announced the 2023 Vocational and Trades Scholarship recipient, Tyler Haskey. While the Foundation received numerous applications, Tyler's stood out from the rest.

Tyler Haskey will be graduating from New Berlin West High School. He is currently enrolled in a work program with the Doral Rental Corporation in Milwaukee, WI, and works at the Pilgrim Park Middle School, Brookfield, WI. Mr. Haskey hopes to start his apprenticeship program with the Doral Corporation this fall.

Rob Keelan, Vice President of Doral Equipment Rental said of Mr. Haskey; "Tyler reached a level of competency that I have not seen with many adult employees. Tyler has garnered nothing but respect from his peers and view him as a supervisor right now". Mr. Keelan went on to say; "Tyler wants to start an apprenticeship with our

organization which is machine moving and rigging. The move to starting a career is the next logical step for him”.

In 2022 the Alumni from New Berlin West and New Berlin Eisenhower High Schools formed the New Berlin High Schools Alumni Foundation to provide a scholarship fund to graduating seniors that wish to attend a vocational or trade school or enter into an apprenticeship program. The scholarships are funded through charitable donations from companies, alumni, and individuals. Your support will help future recipients like Tyle attain their dreams
